To be eligible to attend placement, you are required to hold a current CPR and First Aid Certificate to be able to participate in placement.

**How do I obtain a First Aid and CPR Certificate?**  
Book a training course that covers First Aid (Provide First Aid HLTAID003) and CPR (Provide Cardiopulmonary Resuscitation HLTAID001) through a Registered Training Organisation. USC is not affiliated with any particular organisation, however below is a list of suggested providers:

- Allens Training
- Immediate Response
- Rapid Response
- Surf Life Saving

**How long will these qualifications last?**  
The First Aid component will last for your degree; while the CPR qualification needs to be renewed annually. Most training providers who offer the First Aid course will also offer a CPR course separately.

**How much will the training cost?**  
The cost will vary depending on the training organisation. Please check with your chosen provider.

**How long will the training take?**  
The training length will vary depending on the training organisation. Please check with your chosen provider.
